Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's Representative contacted Examiner to inquire on proposed claim language to the independent claims in order to overcome the currently applied prior art. In particular, Applicant's Representative proposed adding the term "full" to the phrase, "wherein a frame of color data is written into the frame-preparation memory.." to read, "wherein a full frame of color data is written into the frame-preparation memory..." (see lines 9-10 of claim 2, for example). Examiner indicated that such language would overcome the prior art of record however if filed as an after-final amendment, would not be entered as it raises new issues that require a further search and/or consideration of the prior art. .
